TISAX

TISAX (Trusted Information Security Assessment Exchange) enables the mutual recognition of information security assessments in the automotive industry and provides a common assessment and exchange mechanism. The evaluation results always remain under the control of the evaluated companies.

The effectiveness of the control processes and their current implementation are assessed on the basis of the procedure specified in TISAX, as published at the time of ENX reporting.

Net Solutions has been certified according to TISAX since April 2021.

Scope ID: SW2ZR6
Assessment ID: AK2ZR6-1

Detailed information on TISAX can be found at http://www.enx.com/tisax/
